

Your potential, our expertise

Client Services

The continuing rise of insolvency procedures has seen the volume of insolvency notices sent to creditors increase. These are often disregarded, so recovery rates continue to remain low, resulting in millions of pounds remaining unclaimed.

Our Client Services team provides a free service to our clients which removes the administrative burden by outsourcing the management of bad debts and improving recovery rates without any extra cost. If you need assistance in this area, our team can:

- Identify the status of the individual or corporate debtor
- Identify whether an Insolvency Practitioner (IP) has been appointed
- Review Voluntary Arrangement proposals to improve your dividend prospects
- File proxies and proofs of debt on your behalf
- Notify you of any potential dividends
- Collect any dividends on your behalf

The sooner you advise us about the pending insolvency, the more options we have to maximise the return for you.

As so often in business, negotiation is often a better course than legal action. With this in mind, before any formal insolvency takes place, we can approach the debtor, establish their financial position and propose a course of action that will ensure the best result for you.

These options could include:

- Individual Voluntary Arrangement
- Bankruptcy
- Partnership Liquidation
- Partnership Voluntary Agreement
- Trust Deed (Scotland only)
- Informal Agreement
- Creditors' Voluntary Liquidation
- Compulsory Liquidation
- Members' Voluntary Liquidation
- Administrations
- Company Voluntary Arrangements

Your potential, our expertise
