

# Global mobility

Build a top-tier global workforce with our expert cross-border tax advisory and international employment strategy support.

In today's globalised economy, recruiting talent from multiple countries has become the norm. However, the challenge of managing an international workforce, particularly when dealing with differing tax and legal regulations, can be complex and sometimes overwhelming.

Our expert global mobility team is here to help. We specialise in providing tax and social security advisory services as well as compliance services to help you manage your internationally mobile people efficiently.

We offer tailored solutions whether you are hiring your first international employee or scaling your operations. International presence can take many forms including fully remote working, hybrid working, secondments, short-term business travel permanent moves, or an international Board.

## We can help you:

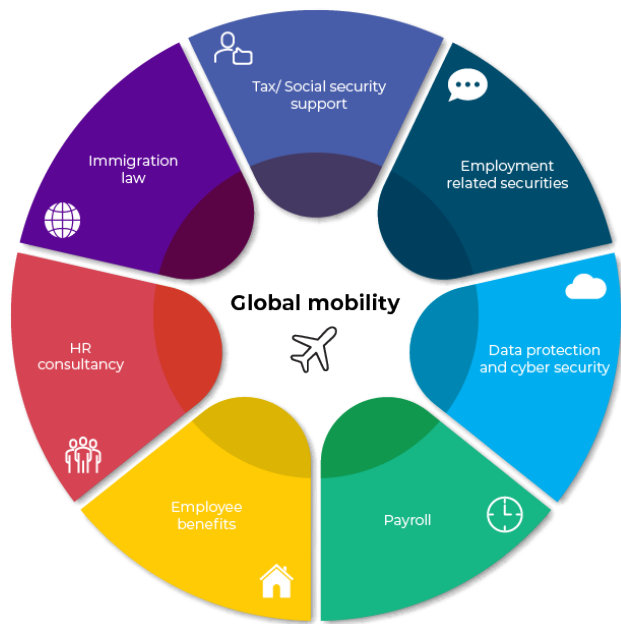

- develop your cross-border tax and people strategy,
- identify and mitigate risks associated with global mobility,
- ensure employer and employee tax and social security compliance,
- assess the tax impact of new projects and policy changes,
- prepare for future disruption with contingency-planning.
